Web Interface

Whenever user hits the url, they will see the web interface like this –

The screenshot shows a web interface for flight fare prediction. At the top, the title "Flight Fare Prediction" is displayed in a large, bold, blue font, accompanied by a blue airplane icon. Below the title, the form is organized into several sections. The "Airline" section features a dropdown menu with "Air Asia" selected. The "Departure" section includes three input fields: "Departure Date" (2023/06/01), "Departure Hour" (0), and "Departure minute" (0). The "Arrival" section follows, with "Arrival Date" (2023/06/01), "Arrival Hour" (0), and "Arrival minute" (0). The "Source" and "Destination" sections each have a dropdown menu, both currently showing "Banglore". The "Stopage" section has a dropdown menu set to "non-stop". At the bottom left, there is a red button labeled "Predict Price".
